REQUEST FOR ACCESS TO THE RECREATION GROUND

Our property (20 station road) backs on to the recreation ground and we have a lot of green garden waste to remove. We would like to ask if access to the rear of our property could be granted for the day (preferably a weekend) for a truck to load and take away the green garden waste. We would really appreciate the one off access and happy to pay any costs associated with granting us access.

Sometime at the beginning of April or onwards would be preferable. The person who would carry out the work understands he would need to be careful and the ground is currently too wet to drive on. He raised that with me himself. Any questions you have please let me know or you can contact me on
