WHEELCHAIR ACCESS TO THE SKATE PARK

Hello, I was wondering if there would be any way we could get a small path from the footpath next to the skatepark allowing access for WCMX (wheelchair BMX) and be one of the first places in the UK to have wheelchair access to the skatepark? I could start a fundraiser to assist with funds? It's an upcoming sport and I would love for our local park to be available to everyone.

All the best,
