

Gibson Close Feedback from SCDC Enforcement Officer

RE: Ref: S/2660/18/DC

Hello Carol

Sorry for the delay in responding, the Lead Local Food Authority have confirmed that the testing associated with the surface water drainage condition is now acceptable and whilst I appreciate the views of the Parish (which were forwarded to them) they have now agreed to discharge that condition subject to the additional information which is attached to discharge of condition application. (S/3503/18/DC) The application S/2660/18 has been amended to remove the water and other conditions.

Happy to discuss further at our next meeting.

Regards  
Julie Ayre
