

REPORT ON FUNDING 2015-16

Waterbeach Parish Council

The funding we received this year helped us to subsidise counselling sessions for the residents of Waterbeach. We are seeing an increasing need for our services, and are particularly concerned by the impact that relationship breakdown has on children. We are now also offering counselling to children from 5 years and up.

We have a new film promoting these services. Please have a look. It is 3 minutes long.
