Dear Emma

Subject: Planning Application S/3372/17/CW

Further information and evidence respecting environmental statements:

Proposal: Application for full planning permission for the construction and development of a Waste Recovery Facility (Waterbeach Waste Recovery Facility Field, Waterbeach Waste Management Park (WWMP), Ely Road, Cambridge

Location: Levitt's Field, Waterbeach Waste Management Park, Ely Road, Waterbeach, Cambridge CB25 9PQ

Waterbeach Parish Council continues to recommend that this application is **REFUSED**. As far as we can see and understand them, the mitigation measures covered in the supplementary information are not sufficient. In particular, the serious concerns of the impact of the incinerator on Denny Abbey, the Farmland Museum and the surrounding Fenland landscape have not been allayed.

The supplementary information submitted by the applicant is difficult to interpret and, whilst acknowledging the drop-in event held in Landbeach, and the planning authority resource constraints, the Council would have appreciated more direct assistance to explain the implications. Moreover, the addition of Mitchells Hill into the assessment has further complicated an already complex issue.

The Parish Council also wishes to reiterate that the comments it has already submitted still stand and ask that they be taken into consideration when the application is being considered.

Shelley Mason
