4 December 2014

**To Representors to the Submission Cambridge City Local Plan and the Submission South Cambridgeshire Local Plan**

Dear Sir/Madam

**Independent Examinations: Cambridge City Local Plan and South Cambridgeshire Local Plan**

The Hearings Programme for the above Examinations has been updated with details of the next block of hearings to be held. This is block 2 and will have hearings to consider Green Belt issues and Transport issues for both Local Plans.

The Hearings Programme is available on the examination web pages on both Councils' websites and can be accessed via the following links:

<https://www.cambridge.gov.uk/local-plan-review-examination>

<https://www.scambs.gov.uk/local-plan-examination>

The Main Matters and Issues for these hearings have been prepared by the Inspector and are also on the examination web pages and accessed via the above links.

The Hearings Programme and future updates of the Inspector's Main Matters and Issues for forthcoming hearings will be kept up to date on the examinations web pages as they are revised.

**Please note that no further notifications of updates to the Hearings Programme, Matters and Issues and other Examinations documents will be sent out to all representors, either by post or email, as a matter of course. As stated in the Guidance Note for Participants, you are therefore advised to ensure you keep yourself informed of future hearings being programmed by regularly checking the Hearings Programme on the websites if you have requested to appear at a hearing for particular issues, or have an interest in observing at the hearings. Please also refer to the Guidance Note and the Note of the Pre-Hearing Meeting, also accessible on the examinations webpages, for information and guidance relating to the format of statements for hearings, deadlines and the examination process. Please be aware that statements which do not meet the requirements set out in the Guidance Note are likely to be returned.**

If you are unable to access the internet and require information relating to the programming of a specific hearing, please contact me. Please do not hesitate to let me know if you require any further information.

Yours faithfully

*Gloria Alexander*
